

PRESS TEXT KremsChem Austria GmbH

The company was founded in 1948 and has successfully developed the location ever since. The company operated as Krems Chemie for over 50 years and as Metadynea Austria for the last decade. Since 2014 it has been integrated into the Sorcy Investment Trust. With KremsChem, the brand returns to its roots - in a new, modern and international version. The new name KremsChem reflects the innovative spirit and connection to the region.

KremsChem Austria is the regional market and technology leader for resins, as well as a specialist in fine chemicals, surfacing materials and flame retardants. Every year, around 400,000 tons of these quality products are manufactured in state-of-the-art production facilities. KremsChem Austria currently employs around 225 people.

The R&D team with well-trained and experienced specialists acts as an important competence center for product development and application technology.

KremsChem Austria is committed to quality, environment and safety and is therefore ISO9001 / ISO14001 / ISO45001 and Responsible Care certified.
